Dear Craig,

Just wanted quickly to say how nice it was to see you again briefly on Wednesday morning and to thank you for providing me a much desired opportunity to express a deeply felt view. I hope I did not overstep my bounds but I certainly feel strongly and my motives have been impugned in the press improperly.

If there is any way we in the Intelligence Community can support you in the future, please let me know. In the meantime, thanks again.

Yours,

STANSFIELD TURNER

The Honorable Craig Hosmer
President, American Nuclear Energy Council
